Specification

- Steel, zinc plated, blue passivated **SZ**
- Stainless steel, plain finish **NB**
- RoHS

Information

T-slot nuts GN 51b fasten attachments and accessories in the slot of aluminum profiles. They are inserted into the slot of the aluminum profile at any position and affixed by a 90° turn.

With type B, the increased torque in the nut thread ensures that the required 90° turn during installation or removal of the bolt is always reliably transmitted and the T-slot nut is aligned crosswise or lengthwise to the slot.

The connection is conductive.
